2019 UK Parliamentary general election candidate spending

2019 UK Parliamentary general election candidate spending Download the data 2019 UKPGE candidate spending About the data This tool uses data taken from the spending returns that candidates submitted to Returning Officers across the UK. We publish this information as it appears on the candidate's return so that there is an accurate record of what was reported. Information about candidates' share of the vote in each constituency has been taken from data provided by the House of Commons Library in January 2020. This data may not reflect any subsequent revisions or updates made by local councils. if you have any questions about the data included in this tool.
